# donttellmum®

## your (kids) relief

### Soft brush for chickenpox

**Suitable for babies and children of 6 months and older.**

donttellmum® Soft brush for chickenpox is available in a 50 mL tube with a soft brush applicator. Cosmetic product that nourishes and protects the skin during chickenpox.

donttellmum® Soft brush for chickenpox is an emulsion containing natural ingredients that can be applied in an easy and hygienic way thanks to the soft brush applicator. It forms a protective barrier on the skin, helps to relieve itching and reduces the risk of scarring associated with chickenpox. The emulsion is transparent after application avoiding extra accentuation of the blisters.

#### Why use donttellmum® Soft brush for chickenpox?

The emulsion:

1. Cools, helps relieve itching
2. Helps to prevent scratching
3. Reduces the risk of scarring

#### Dosage and use

Clean and dry hands before and after applying the emulsion. Store in the refrigerator for extra cooling effect.

#### Instructions for use

Apply a thin layer onto the affected spots twice per day.

### The promise of donttellmum® Soft Brush for chickenpox: easy and hygienic, helps relieve itching, prevents scratching and thus reduces the risk of scarring.

donttellmum® Soft brush for chickenpox's components were carefully selected based on their unique characteristics:

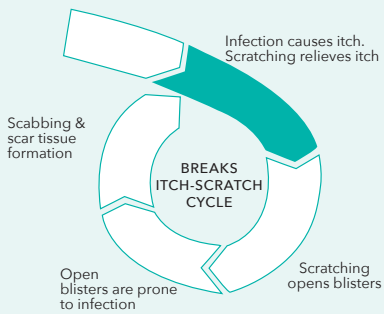

#### 1 Soft brush applicator: easy & hygienic

The donttellmum® Soft brush applicator allows easy, hygienic and single-handed use.

It enables you to keep one hand free to comfort your child while applying the emulsion on the affected area. The Soft brush applicator allows precise application onto the blisters without damaging them.

#### 2 Colloidal oatmeal: donttellmum® Soft brush for chickenpox contains a special oatmeal extract that forms a protective barrier on the skin.

This barrier protects the skin and helps to break the itch-scratch cycle. Scratching may result in scarring.

#### 3 Special ingredients: The sustainable choice for long-lasting rehydration and effective care.

donttellmum® Soft brush for chickenpox contains natural ingredients including a petrolatum alternative of 100% vegetable origin which covers the skin areas effectively resulting in long lasting rehydration.

## Why donttellmum®
